

## List of Supported Currencies

Modified on: Fri, 14 Feb, 2020 at 12:57 PM

Prior to November 1st, 2017 currencies were supported via Yahoo finance. Customers that have previously setup to pull the currency from yahoo will use the last polled data and will no longer be updated. To address this issue customers with active support contracts and running Sippy Softswitch 4.4 or later can have a patch installed and applied to replace this Yahoo Finance Service with one from either Alpha Advantage or Google's online converter.

The list of supported currencies through Google's Online Converter is listed below.

Currency Name	Symbol
